

# FDS POLICY

## SUBSCRIPTION SOFTWARE LICENSING (SSL)

### FDS

FDS develops competitive edge engineering design construction technology for building the sustainable energy world. Our main tool is the mapper suite which consists of survey mapper, plat mapper, route mapper, dashboard and geofinish.

### (SSL) COSTS

**(SSL)** subscription software licensing due costs 10% of the retail price one year after software purchase date for continue use of the software.

### (SSL) SOFTWARES

- 1) Route Mapper
- 2) Plat Mapper

### POLICY

All software licenses purchased from Forefront Design Specialist will be setup with subscription software licensing (SSL). Subscription software licensing is NOT a 1099 MISC Contract. The costs for subscription software licensing **(SSL)** are for FDS software upgrades and end user support. Training is free with eLearning support. FDS software certification training is available. No signed contracts.

### SUBSCRIPTION SOFTWARE LICENSING

Subscription software licensing **(SSL)** puts you in a better position to deploy new functionality and ensures uninterrupted access to vital technology. Some of FDS software platforms support Autodesk products or other software's that are updated monthly or annually. Subscription software licensing ensures customers get the newest updates to each software platform.

### PLATFORMS

Forefront Design Specialist subscription software licensing **(SSL)** comes with Route Mapper and Plat Mapper software's.
